

HALF YEARLY REPORT - SIX MONTHS ENDED 31 DECEMBER 2009

9 March 2010

Greatland Gold plc ("Greatland" or the "Company"), the AIM-listed and London based gold exploration and development company focused on gold projects in Tasmania and Western Australia announces today its half-yearly report for the six months ended 31 December 2009.

Greatland is led by an experienced UK and Australian based board of directors with a proven track record in mineral exploration, resource development and capital markets.

Managing Director's statement

In the six month period ended 31 December 2009 the Company reported a net loss of £382,861 equating to a loss per share of 0.16p (31 December 2008 EPS - 0.1p). The net loss reflects our higher exploration expenditure of £262,250 (more than double the comparable period), as we undertook drilling programmes at our Firetower and Warrentinna projects. We expect our drilling and exploration expenditure to remain elevated relative to levels of previous years as the Company looks to continue its drilling programmes in Western Australia during the second half of the financial year.

The Company has continued to exercise restraint on payroll and administrative expenses which declined 3.6% to £108,450 over the period – a commendable achievement given a high proportion of our costs are the fixed expenditures involved in maintaining an AIM listing, London office and staffing.

Over the six month period ended 31 December 2009 the Company's income statement was affected by a number of external factors, most notably:

- i) the decline in the Sterling/Australian dollar exchange rate which caused a £13,909 loss on translation; and
- ii) the low interest rate environment impacted the Company's interest income which declined to just £1,748 (31 December 2008 £33,176). With regards to the Company's ongoing interest income, the board does not expect a short-term improvement given recent commentary in the UK.

The Greatland balance sheet reflects the Company's prudent approach to liability and expense management with net assets of £1.98m, a very high proportion of which comprises cash and liquid assets of £1.47m.

Despite the delayed start to our drilling programmes at Firetower and Warrentinna owing to heavy rainfall, the drill results as announced on 29 January 2010 were encouraging. To recap, the drill results revealed strong gold mineralisation at Warrentinna necessitating further work to investigate the viability of an open pit operation. Work is ongoing at Warrentinna.

At Firetower we will be completing the modelling of current drill data. Furthermore, surface geochemistry is planned over areas within the new northern lease of Beulah, and surface geochemistry at the southern area of Kentish Hill. We also expect to undertake further work at both Anomaly 1 and Lobster during 2010.

Following the grant of title for licences over the Ernest Giles and Lackman Rock projects in Western Australia, as announced on 30 July 2009, the board intends to prioritise these two prospects during the remainder of this financial year. Additionally, the board has approved a drill programme for Ernest Giles and systematic surface geochemistry at Lackman Rock. These programmes are scheduled to commence during April 2010.

The acceleration of the Company's exploration activities during the six month period ended 31 December 2009 is expected to continue into the second half of the financial year, particularly considering the increasing focus on Western Australia. The board remains open to joint ventures or risk sharing opportunities with local investors as they arise, with an aim of adding both local expertise and extra funding for any or all of our projects.

The wider context for gold exploration remains very positive. The fragility of the financial climate and patchy global recovery has kept gold prices underpinned at nominal US dollar prices not seen for a generation. Gold has risen back above \$1,100 per ounce and is fulfilling its traditional role as an inflationary hedge as well as providing portfolio diversification for institutional investors, central bank and retail investors.

We would encourage shareholders, potential investors and other interested parties to review our website at www.greatlandgold.com for further details on our projects in Tasmania and Western Australia.

Callum N Baxter Managing Director 9 March 2010

Half-yearly report notes

1. Half-yearly report

This half-yearly report was approved by the Directors on 9 March 2010.

The information relating to the six month periods to 31 December 2008 and 31 December 2009 are unaudited.

The information relating to the year to 30 June 2009 is extracted from the audited financial statements of the Company which have been filed at Companies House and on which the auditors issued an unqualified audit report.

2. Basis of accounting

The report has been prepared using accounting policies and practices that are consistent with those adopted in the statutory financial statements for the period ended 30 June 2009, although the information does not constitute statutory financial statements within the meaning of the Companies Act 2006.

These half-yearly financial statements consolidate the financial statements of the Company and its subsidiary and are prepared in accordance with International Financial Reporting Standards as adopted for use in the European Union.

The Company and Group will report again for the full year to 30 June 2010.

3. Loss per share

	6 months to 31 December 2009	6 months to 31 December 2008	Year ended 30 June 2009
	Unaudited £	Unaudited £	Audited £
These have been calculated on a loss of:	(382,861)	(198,177)	(356,103)
The weighted average number of shares used was:	239,550,000	196,550,000	201,262,329
Basic loss per share:	(0.16) pence	(0.10) pence	(0.18) pence

4. Available for sale financial assets

As at 31 December 2009 the Group's listed company investments were valued at £37,547.

Copies of this half-yearly report are available free of charge by application in writing to the Company Secretary at the Company's registered office, 55 Gower Street, London WC1E 6HQ, or by email to info@greatlandgold.com. The report will also be made available on the Company's website, www.greatlandgold.com.
